Mcdonalds pakistan app apk

Order food from your favorite restaurant and deliver it App for ordering food in Saudi Arabia BuzzFeed Tasty App My Cafe Shop cooking game Manage your own restaurant Thousands of recipes and culinary secrets for making mouth water Find the best places to eat or order in Germany Welcome to McDonald's Pakistan McDelivery Mobile subscription app! This app is released by McDonald's Delivery service for Pakistani customers to place orders through Android devices (the blackberry and windows system does not support the app). Customers must register by email and password before placing an order. The same logon credentials can be used to subscribe to the application network (the network). Now you can conveniently place your order and follow it from the restaurant to your doorstep. Make sure you select your location before placing your order. Please note that the credit card payment is not yet available on the McDelivery Mobile Ordering app (coming soon). Good news for McDonald's lovers as the famous fast food chain rewards you for your loyalty and offers you the chance to get weekly deals. Deals like a free sandwich or free drink when you buy 5 McCafes. You can also get money from your meals that can be redeemed both in the store and in the drive-thru. Whether you're a big Mac fan or more inclined to chicken nuggets - deals are suitable for everyone! How do I get this app? Simply download the McDonald's app on your smartphone and start accepting special offers almost immediately. All you need is an Android smartphone or tablet running on version 4.0.3 and up. The only information the app needs is the email address of your location and contact, to which they can send exclusive offers. How does the app work? It's easy to have exclusive offers sent to you every week that you can easily redeem in the app - just choose the offer you want, tap on 'redeem' and scan your phone when ordering at checkout. You don't have to print offers; All you have to do is show the checkout the QR code on your screen. After downloading the app, you'll be greeted with a free sandwich as a welcome gift, but make sure you sign up before you queue up for the store. The app also allows you to browse the menu and find out the nutritional information for each item. You can also use the location feature to find out where the nearest McDonalds is. What's new? McDonald's is always looking for new ways to improve the app to make sure it's as user-friendly as possible. Recent improvements include:- Push notifications that can be turned on or off - Social sign-in with Facebook and Google+ settings - Ability to choose GPS integration to find nearby McDonald's locations - Performance improvements and debugging VOLG ONS
